

IDDE Resources for CEZOA training February 20, 2026

Illicit Discharge Detection & Elimination manual: https://www.epa.gov/sites/default/files/2015-11/documents/idde_manualwithappendices.pdf

Potentially helpful resources for learning more about IDDE – note, like Friday, this isn't jurisdiction-specific. For some of you, reaching out to Prince George's County for training may help. For others, check out these videos.

<https://npdes.com/idde-for-field-personnel>

<https://npdes.com/on-demand-training/caceo-members-workshops/caceo-member-workshop-illicit-discharge-detection-elimination> (specific to Code Enforcement officers, albeit those in CA, if you can get access to it)

Note – the detection part is likely more important to learn than the elimination part for y'all, depending on if your DPW staff may have completed more robust training.

Prince George's County Municipalities – check out this report.
